Glenda Ritz, Superintendent of Public Instruction

Three Ways to Meet Indiana's Graduation Examination Requirements

[IC 20-32-4](#)

Prior to the 2011-12 school year, all high school students were required to meet the requirements of the state's Graduation Qualifying Exam (GQE) in order to graduate. The last administration of the GQE was in the spring of 2011. The new graduation examination requirement for students who entered high school in 2008-09 (graduating class of 2012) or after is to take and pass the ISTEP+ Algebra I Graduation Examination and the English 10 Graduation Examination. These new graduation examinations are End of Course Assessments (often referred to as "ECAs"). As part of No Child Left Behind, Indiana students are also required to participate in the Biology I End of Course Assessment, but the Biology I ECA is not part of the graduation requirement.

Indiana's ISTEP+ state examination graduation requirement can be met in three ways:

1. Pass the Algebra I and English 10 ECAs (graduating class of 2012 and beyond);
2. Fulfill the requirements of the Evidence-based waiver; or
3. Fulfill the requirements of the Work Readiness waiver.

(Note that the "Core 40 waiver" expired with the 2011 graduating class).

[\(IC 20-32-4-4\)](#)

Students who are unsuccessful in passing the Algebra I and/or English 10 ECA by the end of their senior year, may be eligible for one of two state waivers by:

1. Fulfilling the requirements of the **Evidence-based Waiver**:
 - Take the graduation examination (ECA) in each subject area (Algebra I and/or English 10) in which the student did not achieve a passing score at least one time each year after the school year in which the student first took the examination.
 - Complete remediation opportunities provided to the student by the school in preparation for the graduation examination retest opportunities.
 - Maintain a school attendance rate of 95% or better over the course of the high school experience (excused absences are not counted against a student's attendance rate).

Indiana Department of Education

Indiana State Capitol • 200 W Washington Street, Room 225 • Indianapolis, IN 46204

- Maintain a grade point average of “C” or better in the courses required for graduation (a total of 34 credits – see attached list).
- Satisfy local graduation requirements.
- Obtain a written recommendation from a teacher of the student in the subject area(s) not passed. The recommendation must provide documentation that the academic standards have been met, either through other tests or classroom work and must be agreed upon by the principal.

2. Fulfilling the requirements of the **Work Readiness Waiver**:

- Take the graduation examination (ECA) in each subject area (Algebra I and/or English 10) in which the student did not achieve a passing score at least one time each year after the school year in which the student first took the examination.
- Complete remediation opportunities provided to the student by the school in preparation for the graduation examination retest opportunities.
- Maintain a school attendance rate of 95% or better over the course of the high school experience (excused absences are not counted against a student’s attendance rate).
- Maintain a grade point average of “C” or better in the courses required for graduation (a total of 34 credits – see attached list).
- Satisfy local graduation requirements.
- Complete all of the following:
 - Meet the course and credit requirements for a General Diploma (including the career academic sequence);
 - Complete a workforce readiness assessment; and
 - One of the following:
 - Complete a career exploration internship course,
 - Complete a cooperative education course, **or**
 - Earn a workforce credential (recommended by the school).

Children with disabilities ([IC 20-32-4-5](#))

If a student with a disability (as defined in [IC 20-35-1-2](#)) does not achieve a passing score on the graduation examination, the student’s case conference committee (CCC) may determine that the student is eligible to graduate if the CCC finds the following:

- The student’s teacher of record, in consultation with a teacher of the student in each subject area in which the student has not achieved a passing score, makes a recommendation to the CCC. The recommendation must:
 - be agreed upon by the principal of the student’s school and supported by documentation that the student has attained the academic standard in the subject area based on:
 - tests other than the graduation examination; or
 - classroom work.

- The student meets all of the following requirements:
 - Retakes the graduation examination in each subject area in which the student did not achieve a passing score as often as required by the student's individualized education program (IEP).
 - Completes remediation opportunities provided to the student by the student's school to the extent required by the student's IEP.
 - Maintains a school attendance rate of 95% or better over the course of the high school experience to the extent required by the student's IEP (excused absences are not counted against a student's attendance rate).
 - Maintains a grade point average of "C" or better in the courses required for graduation (a total of 34 credits – see attached list).
 - Satisfies all state and local graduation requirements.

Children with limited English proficiency (LEP)

If an LEP student (as defined by [Title IX, Part A, Sec. 9101 \(25\)](#)) does not achieve a passing score on the graduation examination, the IDOE **recommends** that the LEP student is eligible to graduate if the student:

- Obtains a written recommendation from the teacher of record (which may be an EL teacher) and a teacher of the student in each subject area in which the student has not achieved a passing score on the graduation examination. The written recommendation must be aligned with the governing body's relevant policy and must be concurred in by the principal of the student's school and be supported by documentation that the student has attained the academic standard in the subject area based on:
 - (i) tests other than the graduation examination; or
 - (ii) classroom work.
- The student meets all of the following requirements:
 - Retakes the graduation examination in each subject area in which the student did not achieve a passing score at least one time each year after the school year in which the student first took the examination.
 - Completes remediation opportunities provided to the student by the student's school.¹
 - Maintains a school attendance rate of 95% or better over the course of the high school experience (excused absences are not counted against a student's attendance rate).
 - Maintains a grade point average of "C" or better in the courses required for graduation (a total of 34 credits – see attached list).
 - Satisfies all state and local graduation requirements.

¹ Federal law requires all public school corporations to provide English language development services that are in addition to the student's core E/LA program, which is indicated in the LEP student's Individual Learning Plan (ILP). Qualified staff should utilize the student's assessment data regarding the failure to pass ECAs to best coordinate the EL and remediation services to meet the needs of the LEP student.

Credits and Courses that Count for the “Evidence-based” and “Work Readiness” Waivers

For students entering high school in the 2006-07 school year or after, the “courses required for graduation” in computing the “C” average for the “evidence-based” and “work readiness” waivers include the following 34 credits:

- (1) Language Arts – 8 credits (including a balance of literature, composition, and speech)
- (2) Social Studies – 4 credits (must include 2 credits in US History, 1 credit in US Government and 1 credit in “another social studies course, Global Economics or Consumer Economics”)
- (3) Mathematics – 4 credits (must include 2 credits in Algebra I or Integrated Mathematics I and 2 additional mathematics credits; all 4 credits must be earned after the student enters high school)
- (4) Science – 4 credits (must include 2 credits in Biology and credits from at least one additional science category – Physical or Earth/Space Science).
- (5) Health and Wellness – 1 credit
- (6) Physical Education I & II – 2 credits
- (7) Career-academic sequence – 6 credits
- (8) Flex credits – 5 credits

***Note that while a “C” average is needed in the 34 credits noted above to earn a waiver, students must still earn a minimum of 40 credits to earn an Indiana diploma.**
